

Crowns, Bridges, and Porcelain Veneers

All Ceramic Crowns

Esthetic
Can fracture over time
Need to reduce more of the tooth than metal crowns and bridges

All Ceramic Bridges

Esthetic
Can fracture over time

Porcelain Veneers

Esthetic
Minimal preparation
Insurance usually doesn't cover

Captek Crowns

Reasonably esthetic
Gold forms great to the tooth

Porcelain Fused to Nobel Metal (PFM) Crowns

Porcelain Fused to Nobel Metal (PFM) Bridge

We recommend for posterior teeth
Over time, a dark area near the gum line can form
Tooth reduction is less than all ceramic crowns and bridges

Gold Full Cast Crown

Used for posterior tight bites
Gold forms great to the tooth
Not very esthetic
Popular as “bling”
Necessary in certain patients

Silver Full Cast Crown

Used for posterior tight bites
Not very esthetic
Necessary in certain patients
